

STEP ATTACHMENT

SPECIFICATION

In travel trailers - fifth wheels and R.V. and such have steps that fold in when R.V. IS IN MOVEMENT AND FOLD OUT WHEN R.V. is park and being used to enter and exiting the R.V. and such the step attachment that will be assembled over the R.V. folding steps when parked and disassembled when R.V. IS IN MOVEMENT THE STEP ATTACHMENT WILL MAKE THE R.V. folding steps much stronger and by adding a handrailing to the R.V. folding steps the step attachment is an advantage and improvement over the folding steps of the R.V. by makeing the R.V. steps much stronger and by ading a handrailing for safety

BACAGROUND

the present invention relates to a structure to make the fold out steps of a recreational vehicles more stabile and stronger for entering and exiting the structure. in recent years R.V. have become increasingly popular for use in travels of elderly and retired persond. however seeing the fold out steps are not to stabile as thay are at this time on R.V. it would be highly desirabl to fabricate a step attachment to stabilzing and strengthen the fold out steps that are on R.V. and on the market at this time it is to such an assembly that the present invention is directed
